

November News

Mrs Korver's Class

Shapes:

During the first week of November we will be exploring shapes. We will learn to recognize these shapes with and among the many toys we play with in the classroom. We hope to sponge paint, and create a shape picture collage. We will practice cutting shapes too!

We continue to learn and recognize the letters in our names. We hope to make a name train!

Transportation:

This month we are on the move! We will learn about things that move in the water, on land, and in the air. We will learn about a steam train, and paint with cars. We will rocket to space and fly a jet plane. We also hope to go deep into the ocean with a submarine. This is such a fun unit for the kids.

We have a classroom full of fun new toys and activities to explore!

It is so much fun getting to know your children! They are busy making friends in the class! I am seeing the children become more and more comfortable with each other and the classroom. They are settling into the routines. It is wonderful to see!

Thank you to all the playdough makers so far! We appreciate you! Please mark the calendar on the Parent Board if you want to volunteer in any way.

Other Notes:

Nov. 8/9 - Remembrance Day discussion

Nov. 10 - No School

Nov. 13 - PD day - No school

Advance Notice:

Christmas Concert: Dec. 20/21
