

Joining us for half-time MS Language Arts is **Mrs. Kristin Havinga**. She is an alumnus from the CCS class of 2006, and is currently teaching at Rimbey Jr/Sr High school. She has also taught at Wainright and Braemar, a school of young mothers. Her degree from the University of Alberta (Bachelor of Education, 2014) featured a major in English and a minor in Religious Education. She has broad interests, which have led her to coaching, leadership, speech, and non-profit involvement such as the Mustard Seed and Make a Wish Foundation.

Also in our MS - primarily teaching Math 7 & 8 - is **Mr. Kevin Stoesz**. He was with us for a month in 2017, and we are excited to welcome him back to CCS! Since graduating from University of Alberta & Red Deer College with a Bachelor of Education/Science Combined Degree in 2015, Kevin has been teaching MS & HS math in both Palliser and Rockyview schools. He is an active member in his church leading youth, and a key member of the Camp Valaqua leadership, directing summer programs. He enjoys spending time with students, especially as a coach. After school hours, he'll likely be found in our gym working with a CCS team.

Finally, our HS humanities teacher will be **Mrs. Jenelle Geransky**. She is currently an English and Special Education teacher at Sullivan Heights Secondary School in Surrey, BC. Her schooling includes a Bachelor of Arts from University of Fraser Valley, and a Bachelor of Education from Simon Fraser University. She has a History major, a strong knowledge base in inclusive education and Universal Designs for Learning Practices (UDL), and has taught both aspects of humanities at the senior level (English and Social Studies). Prior to teaching, she spent four years working with children with exceptionalities, including the Canucks Autism Network. She is a keen volleyball athlete and runs a club program together with her husband.
