

"In Grade 5 Social Studies we have the opportunity to learn about how events in history shape Canada's identity. We spend time acquiring information, dialoguing about important people, and how we continue to shape this amazing country.

After learning about Black History and the contribution (and continuing contribution) to Canada's identity, the students were asked to pick words that impacted them and together we made this collage of knowledge, feeling and deep understanding."

"Intelligence plus character, that is the goal of true education."
