As you may remember, the Celebrating Racial Diversity Team, composed of a small group of parents and staff, met over the last several months. We are appreciative of the team's time, commitment and care for the CCS Community. Out of the conversations and time spent together, several recommendations were made and passed along to our Administration and CSCE Board members to act on in the coming months and even years. One of those recommendations was to LISTEN. Listen to stories of hurt and racial discrimination of students and families, including those who no longer have family present at our school. We want to create a process for reconciliation and healing. If you, or someone you know, would like to participate in this restorative practice, please [click THIS LINK and complete the form](#). This will be a highly confidential process facilitated with respect and humility. We ask the CCS Community to keep this undertaking covered in prayer as we understand this will be a journey for all those involved.

We have shared with you the communication directly from ALERT, but we felt it was important to share some more information about this difficult topic. We know this is a difficult conversation to have with your children, but ultimately, their safety and wellbeing is our top priority. Please read Palliser's [Parent Message HERE](#) and the Police [Advisory HERE](#).
