CCS is committed to ensuring that our information is accessible and understandable for everyone. We understand that English might not be the first language for some members of our community. To ensure that everyone can fully understand our communications, you might find it helpful to use translation tools, such as Google Translate, DeepL Translator, Microsoft Translator, or Yandex Translator. Additionally, you can also seek assistance from chatGPT for translations or clarifications. While these tools are quite advanced and useful, please note that they may not always provide perfect translations, especially for complex texts, or specific terminologies. Therefore, we recommend double-checking critical information or seeking clarification from the school leadership if needed. We will help find a translator.

Alberta Education Assurance Survey is now available. Parents, please take a look at this [information sheet](#) to learn more about the importance of filling out this survey. You should have received your access code from Alberta Education in the mail so please take some time to complete it. The deadline is **March 1**.

The **Early Learning and Child Care Parent Engagement Survey** needs your feedback to help shape child care in the province. More information about our province's child care system can be found [here](#). When you're ready, take the survey using this [link](#).
